### ***Residency***

University of Iowa Orthopaedic Surgery  
Iowa City, Iowa

### ***Fellowship***

Carolinas Medical Center Foot and Ankle Fellowship  
Charlotte, North Carolina

Dr. Bonar believes the majority of foot and ankle problems can be treated effectively with simple and inexpensive non-operative methods. She has completed a Foot and Ankle Fellowship in addition to general orthopaedic residency and is a leader in her field by staying abreast of the latest developments in diagnosis and treatment.

Dr. Bonar is assisted by specialized medical staff, along with a certified pedorthist/orthotist trained in shoe fitting and the construction of specially prescribed orthotics (shoe inserts) and braces. Many of her patients are referred for common conditions such as:

- Foot and Ankle Pain
- Bunions and Claw Toes
- Shoe-Fitting Problems
- Ulcers due to Vascular and Diabetic Foot Problems
- Arthritis of the Foot and Ankle
- Persistent Pain After Ankle Sprain
- Athletic Injuries
- Fractures/Foot and Ankle Trauma
- Painful Flat Foot
- Foot and Ankle deformities
